RESUME

Thanks for purchasing this Item. Please follow the instructions to edit the Photoshop & MS Word Files :)

Font Download link

1. Raleway - https://www.fontsquirrel.com/fonts/raleway

❖ Don't forget to install the fonts at first. Otherwise you can't edit the files.

Photoshop Edit

1. To edit **TEXT**, simply select the **Type Tool** from the tool bar. Click on the text layer that you need to change, select all the texts & type your own data. Select any tool to apply the changes. Done!

2. To edit **IMAGE**. Just double click on the convert to smart object layer show a new page. Now put your **IMAGE** and Resize it by pressing **Ctrl+T & Ctrl+S** save it. Done! * Change **Signature** in the same way :)

3. To edit **SKILLS**, simply select the **Type Tool** from the tool bar. Click on the text layer that you need to change, select all the texts & type your own data. Select any tool to apply the changes. Done!

MS Word Edit

1. To edit **TEXT**, simply click on the text layer that you need to change, select all the texts & type your own data. Done!

2. To edit **IMAGE**, select the **Grey Color Circle**. Then go to: **Format > Shape Fill > Picture Fill >** Choose your photo from the PC > press OK. Done!

3. To edit **SIGNATURE**, select the Signature. **Right click on it > Change Picture >** Choose your own picture from PC > Press OK. Done!

4. To edit **SKILLS,** simply click on the text layer that you need to change, select all the texts & type your own data. Done!

.

Congrats Man. You are done!

I hope you won't face any problem. Unfortunately if you face, don't worry. I'm always available to help you :)
Contact me via my TemplateMonster profile I'll try my best to help you. Good Luck!
